Field Investigation of Indus Dolphin Mortality

**Meetings and Discussions:** The issue of mortality of Indus dolphin has come at glance at different forums and some of the key stakeholders have had intensive sessions of series of meetings and discussion. These meetings include following partners:

- Sind Wildlife Department
- Pakistan Wetlands Program.
- Sind Fisheries Department
- Environmental Protection Agency Sukkur.
- Sind Youth Welfare Organization.
- WWF IRDCP
- Sind Forest Department
- Local Media Persons.
- Fish Contractors
- Representatives from Fishermen Communities.

One of such meeting was recently conducted at Indus Dolphin Centre on 23-11-2011 and field visit was planned to investigate and assess the situation particularly on fishing nets stretched inside the river.

**Field Visit:** The boat trip was organized with support from Pakistan Wetlands Program and Sind Wildlife Department. The team of was consisted of following persons:

- Dr. Fehmida Firdous (Deputy Conservator Sind Wildlife Department)
- Mr. Umer Waqas (Pakistan Wetlands Program)
- Mr. Soomro (Assistant Director Sind Fisheries Department)
- Mr. Imam Bakhsh (Inspector Sind Wildlife Department)
- Mr. Irshad Ali (Game Watcher Sind Wildlife Department)
- Mr. Nazeer Mirani (Game Watcher Sind Wildlife Department)
Results: The team found people fishing in the middle of the river without any card or fishing license. The team also found temporary camps of fishing groups on islands inside the river and along narrow channels all of them were unable to produce any permit but they claimed to be fishing for their fish contractor who they said has the license.

Actions in Progress: Sind Wildlife Department, Sind Forest Department and Pakistan Wetlands Program are in process series of dialogues with all key fish contractors and influential lords living along the river in Katcha area. The main objective of these dialogues is to convince them to be part of initiatives to stop the Indus dolphin mortality and play their role in protecting the Indus dolphin by using their influence on fishing nets operators and contractors to take all possible measures to save this precious animal.

Way Forward:

Fisheries department need to take strict actions to stop that illegal and offensive mode of fishing that has deteriorated the situation for Indus dolphin. There is an urgent need for patrolling and monitoring to keep check on these fishing nets and practices. There may be a patrolling task force including persons from Fisheries department and Sind wildlife with a mandate of taking actions against those fishermen and contractors. There is also need of dialogues with those fish contractors and card holders and strong message may be conveyed to stop the style of fishing that is posing direct threat to Indus dolphin.
